

MAME LIBASSE MBOUP

Data / AI Engineer

@ libasselayer01@gmail.com 📍 Toulon, France ☎ +33 6 51 98 36 14 🌐 libasse.tech

4+ years of experience in **data science**, **data engineering** and **machine learning**, in **public health** (ARS PACA / Ségur), **telecommunications** (Orange) and **energy** (Enedis). Expertise in **Agentic AI**, **Data Analysis**, **Machine Learning**, **Deep Learning**, **BI** and **ETL**. Proficient in **Python**, **SAS Viya**, **n8n**, **SQL** and **Cloud** tools.

PROFESSIONAL EXPERIENCE

Data Scientist – Public Health Innovation e-Santé Sud (GRaDeS PACA)

- 📅 Oct. 2022 – Present 📍 Hyères, France
- Hospital bed mapping: real-time visualization tool for available healthcare capacities, powered by automated data feeds, deployed for crisis management (Covid-19, mass casualty plans, hospital strain) at ARS PACA.
 - CONTESS: decision-support dashboard for the Ségur digital health program across 6 sectors, cross-referencing DMP, MSS, INS and Pro Santé Connect usage via multi-source SAS Viya pipelines.
 - Development of strategic dashboards to support regional management and improve care coordination (OKAPI, ETP, Emergency/SAMU-SMUR, ROR, E-parcours).
 - TRU Modeling (ARS PACA): tool identifying at municipal level the factors influencing avoidable emergency visits, based on demographic, health, care access and socioeconomic variables, to guide unscheduled care deployment.
 - Migration of BI reports from JasperSoft to SAS Viya and automation of data processing with Python/SQL.
 - Regional SAS Viya platform administration (access rights, Caslibs, user groups, multi-source data integration).
 - Automated medical data extraction (reports, prescriptions, lab results in PDF/images) via multimodal LLM (Gemini), with structured output to Google Sheets using n8n.
 - Healthcare professional address verification through cross-checking via Google Maps (Apify) and PagesJaunes (SerpAPI), with inconsistency detection and automatic database updates.
 - Intelligent Redmine ticket triage: automatic classification and assignment via LLM analysis, priority determination, consistency checks and dynamic agent assignment within DTSI.

Data Scientist – Work-Study Orange

- 📅 Sept. 2021 – Sept. 2022 📍 Lyon, France
- RPA automation (UI Path) and advanced data visualization with Kibana and Power BI for operational team management.
 - Development of statistical models on large-scale heterogeneous data streams (network monitoring).

Data Engineer – Internship Enedis

- 📅 Apr. 2021 – Sept. 2021 📍 Toulon, France
- Full-stack regional energy monitoring application (CodeIgniter/PHP/MySQL) for real-time field consumption tracking.
 - Multi-source data integration via Denodo (VQL), analytical reports for regional management.

PROJECTS & RESEARCH

- ### Academic Research
- Co-clustering of spatio-temporal data in R — M2 Thesis, Université Lyon 2.
 - Paper on article categorization via semantic keyword relationships (abstracts and titles).

- ### NLP & Deep Learning
- Word Embedding, preprocessing. DBLP visualization (NetworkX, Umap, Pyvis). Topic Modeling (LDA). Search engine and author identification.
 - Skip-Gram (GloVe). RNN, CNN, Encoder-Decoder + Attention. Fine-tuning BERT.

- ### Machine Learning
- Decision Trees, Random Forests from scratch (OOP). Mixture models (EM, SVM, K-Means) on MNIST.

- ### Development & Games
- Real-time multiplayer Quiz (WebSocket, Node.js, MongoDB). 3D Karting (Three.js). Reversi/Othello (SDL2, WebAssembly). Dark Souls RPG in Java.

- ### AI & Web Applications
- FIFA Fish: B2B seafood export platform (Next.js 15, PostgreSQL, NextAuth.js). Ghost Intelligence Solutions: AI agency with integrated n8n chatbot.

EDUCATION

- ### Master Machine Learning for AI Université Lumière Lyon 2
- 📅 Sept. 2020 – Sept. 2022
- Advanced supervised learning, Deep learning, Manifold learning, Model-based learning, Parallel computing, NLP, Text Mining, Big Data management and analytics.

- ### BSc Computer Science Université du Littoral Côte d'Opale
- 📅 Sept. 2018 – Sept. 2020 · Calais, France

- ### BSc Mathematics & Computer Science Université de Thiès
- 📅 Sept. 2015 – Sept. 2018 · Thiès, Senegal
